

## **Getting started**

Our club is set up to take you through the steps and teach you what you need to know, guiding you from day one until the day you get your B cat licence. If you're thinking about giving it a go, I'd highly recommend it. You don't need any experience to get started—just an interest and a willingness to learn, and most importantly, a commitment to following safety instructions, which is of the utmost importance. The club is welcoming, supportive, and a great place to pick up a new skill, meet like-minded people, and challenge yourself. Joining can be one of the best decisions you can make, and I encourage anyone curious to come along and see what it's all about.
